

GW-1160

HYBRID GRAIN SORGHUM

- **Outstanding yield performance**
- **Large area of adaptability**
- **Overall good agronomic package for dryland**

GW-1160 Hybrid Grain Sorghum is a widely adaptable hybrid from North to South. This hybrid adapts well to various soil types and conditions. GW-1160 can offer dependable yields under stressful conditions. If you are needing a medium-early maturity hybrid that yields big in its maturity class, look no further. GW-1160 can do the job for you.

Disease/Insect Ratings

Anthracnose:	2
Charcoal Rot:	1
